

## **Iluka Road to Woodburn**

The Roads and Traffic Authority (RTA) is planning to upgrade approximately 35 kilometres of the Pacific Highway to dual carriageway between Iluka Road and Tuckombil Canal, Woodburn.

Since the last community information session in March 2005, the project team has undertaken a number of detailed technical and environmental studies along the highway corridor.

The RTA has now published Progress Update No. 1 describing the status of the project.

To obtain a copy of the Progress Update or for further information on the proposed upgrade, please visit the website (see below) or contact the project team on (toll free)
