

Upgrading the Pacific Highway

New South Wales

**Iluka Road to Woodburn**

## **Concept design display**

The NSW Roads and Traffic Authority (RTA) is investigating an upgrade of the Pacific Highway from Iluka Road to Woodburn.

The RTA has developed a concept design in response to a range of geotechnical, engineering, environmental and community issues.

More information is available in the March 2006 community update and the Iluka Road to Woodburn Concept Design Report.

Copies of the update and report are available by contacting the project information line or on the project website (details below).

Community members are invited to comment on the proposed option during the display period.

The concept design is on public display until **Friday 28 April 2006.**
